

What is kPhone?

kPhone is a revolutionary solution that allows schools to manage their students' devices in a simple, organized manner.

We provide your child with a kosher iPhone with the kPhone system installed on it.

Why kPhone?

Designed for Your School

kPhone plans are customized to each school's standards and needs. The school administration chooses which settings, apps, and features are available on the kPhones.

Tried and True

We have worked with over 80 schools worldwide. That's 20,000+ happy students!

Secure

All of your child's personal information remains safe and encrypted; we do not have access to it.

FAQ's

- ?** **How much does kPhone cost?**
There is a one time set-up fee of \$25, plus \$7 a month per device. In most cases, the parents pay us directly (there are some schools that choose to pay for it).
- ?** **Which phones are supported?**
The kPhone system is compatible with iPhones only (any iPhone newer than the iPhone 6 will work). We do not work with Android at this time. Please note, some schools only permit certain model iPhones. Please be in touch with your child's school to find out more details.
- ?** **Can kPhone be installed on an existing phone?**
Yes, we can install our system on to previously purchased iPhones or you can purchase a phone from our website.
- ?** **Are you able to see my child's personal information?**
We do not have access to see or edit any personal information on the device. We only have access to some basic information about the actual device itself to ensure the kPhone system is working properly.
- ?** **How do the students request new apps and receive support?**
The students will have a support app on their phone where they can request new apps and let us know if they need help with anything. We are also available 24/6 via phone or email.

When students request that an app or feature be added to their kPhones, we inform the school administration and they decide whether or not to allow it.
- ?** **Does kPhone come with phone service?**
No, you need to purchase a sim card and cell phone service separately. Please note that some schools require you to purchase from specific providers.
- ?** **What happens when the students leave school?**
There are different settings that apply during vacation. Most schools offer an alumni plan too, which allows students to continue using kPhone even after they graduate.
- ?** **Can I purchase kPhone even if my child's school is not enrolled?**
At this time we only work with schools.
